

©ALPHABET HEARTS

This pattern collection is a spinoff of a challenge project I submitted recently with electric quilt software. I have received much inspiration from the offerings at paperpanache.com and wish to thank Linda Worland, the website owner for her generous time and effort spent in preparing this file so that I may share it with you. I hope these patterns inspire your next work of art. ©2003 Kathleen Potvin - personal use only, please

Special Note: The block patterns are on pages 2 thru 6. All the color graphics are on this first page, to give you the option of not printing the color pages. All blocks are set at 3" square and all blocks are constructed in 2-parts (except for the letter X, which has special instructions on the pattern). Before sewing, cut apart on the solid black line and be sure to add your seam allowance on all sides while sewing.

Questions or comments are welcome: bobkat@onlyinternet.net
