Paper Panache Spring Nosegay Pattern

PAPER-PIECED FOUNDATION PATTERN

Working block size is 4.5"x4.5" including seam allowances

(Each nosegay within 9" block)

This is a basically a two-block quilt pattern. The Optional Connector Patterns on pages 3-7 are there to help you finish the edges of the top.

COLORS:

scr—scrap...Decide on your color scheme. This is an opportunity to use as many scraps as you may have on hand. Mix up the sizes of your prints. DO NOT USE DARKS OR GREENS in the scr areas of the block.

gn—green...Use medium to dark-medium green for the cones.

wh—white...This is the background color. Light beige, muslin prints and white-on-white prints are suggested. If you have a different background color in mind, remember that it will go wherever "wh" is marked in the block.

SEWING TIPS:

Print out enough page 2s to make the number of blocks you need.

If needed, you can find online paper piecing instructions at <http://www.paperpanache.com/howto/how.htm>. It outlines the steps for general paper piecing and also include tips for faster, easier sewing. Make sure to add the seam allowances as you go.

Trim blocks on the outside line, keeping printed seam allowance.
